

Dear Participating Provider:

Community Care Plan (CCP), formerly known as South Florida Community Care Network, would like to invite you to participate in our Pay for Performance Program (P4P) which is the way CCP participates in the MMA Physician Incentive Program (MPIP). This Program has been designed for in-network providers who are dedicated to healthy outcomes for their assigned patients, and interested in increasing their National Committee on Quality (NCQA) HEDIS Score Performance. It is an interactive program that aligns your practice performance with the program standards while providing the physician the opportunity to be paid an equivalent to the appropriate Medicare rate, as established by the Agency for Healthcare Administration (Agency), including coverage of Primary Care Services, as specified by CCP and approved by the Agency. Enhanced payments will be made to qualifying providers upon submission of a clean claim for dates of service October 1, 2016, through September 30, 2017

What is the Pay for Performance Program?

It is a program developed by CCP to provide physicians with tools to support the delivery of high-quality care for patients. The program assesses physician performance in the delivery of evidenced-based care and usage of recommended clinical guideline recommendation. We are aware that impacting multiple HEDIS metrics can seem like a daunting task. That is why we developed a unique program that incorporates cost-free customized data and reports specific to your practice with on-going training and technical assistance if needed. The data provided serves as the basis for a targeted approach to close the gaps on key quality clinical measures. This is a quality based program that rewards your practice performance with an opportunity to additional reimbursement.

What are the Benefits of participating in the program?

CCP collaborates with the providers who participate in the program using sophisticated data algorithms and analytics to produce user-friendly and accurate reports to assist in enhancing your practice's HEDIS performance scores. At CCP, we believe that the provider is essential to improving the quality of care for patients. The participation in the pay for performance program enables physicians to be paid an equivalent to the appropriate Medicare Rate, as established by the Agency. CCP will make this information accessible to providers.

Who qualifies to participate?

Physicians must meet all of the following criteria

- Have a signed a Pay for Performance Agreement
- Board Certified in OBGYN, by the American Board of Obstetrics and Gynecology or the American Osteopathic Board of Obstetrics and Gynecology
- Participating in our network for six (6) consecutive months

Community Care Plan Provider Relations: 1-855-819-9506
Monday through Friday from 8:00am to 7:00pm EST | www.ccpcares.org

- Have achieved the Medicaid 75th percentile, as calculated by NCQA, for at least one of the following access and quality measures, and at least the Medicaid 60th percentile, as calculated by NCQA for the other access and quality measures listed below

Measurement	Measurement Period	Benchmark to Qualify
HEDIS: Prenatal and Postpartum Care - Timeliness of Prenatal Care	November 6, 2014 – November 5, 2015	See above Qualified Provider narrative
HEDIS: Frequency of Ongoing Prenatal Care	November 6, 2014 – November 5, 2015	Rate of patients with ≥81% visits See above Qualified Provider narrative
HEDIS: Prenatal and Postpartum Care - Postpartum Care	November 6, 2014 – November 5, 2015	See above Qualified Provider narrative
Florida Medicaid Cesarean Rate	January 1, 2015 – December 31, 2015	Percentage of single live born Medicaid births in a practice that were delivered via cesarean during the measurement period.

How do you enroll in the Program?
