## Provider Notice

TO: All Community Care Plan Providers & Office Managers

DATE: June 24, 2020

**SUBJECT: Medicaid Coverage of Coronavirus Antibody Testing**

---

On April 27, 2020, the Agency for Health Care Administration (AHCA) communicated that Florida Medicaid covers the COVID-19 antibody test. AHCA has provided additional guidance related to the antibody test coverage.

### Coverage Requirements

Per AHCA guidelines, Community Care Plan, (CCP) covers the following procedure codes related to antibody testing:

Test Category	Detection Method	Procedure Code
Other rapid testing	Antibody testing	86328
	Antibody testing	86769

CCP will reimburse for the antibody testing under the following criteria established by AHCA:

- The test is authorized by the Food and Drug Administration, including Emergency Use Authorization (EAU). The approved test list can be obtained at: <https://www.fda.gov/medical-devices/emergency-situations-medical-devices/emergency-use-authorizations>.
- The test must be ordered by a Florida licensed physician.
- The test must be performed by a laboratory that has a CLIA certification of waiver.

AHCA also advises that, in accordance with the Food and Drug Administration guidance, serological tests for COVID-19 are used to detect antibodies against the SARS-CoV-2 virus and are intended for use in the diagnosis of the disease or condition of having current or past COVID-19 infection, but such tests should not be used as the sole basis for diagnosis.
