What Is Statewide Medicaid Managed Care?

In Florida, most Medicaid recipients are enrolled in the Statewide Medicaid Managed Care program. The program has three parts: Managed Medical Assistance, Long-Term Care, and Dental. People on Medicaid will get services using one or more of these benefit types:

- **Managed Medical Assistance (MMA):** Provides Medicaid covered medical services like doctor visits, hospital care, prescribed drugs, mental health care, and transportation to these services. Most people on Medicaid will receive their care from a plan that covers MMA services.
- **Long-Term Care (LTC):** Provides Medicaid LTC services like care in a nursing facility, assisted living, or at home. To get LTC you must be at least 18 years old and meet nursing home level of care (or meet hospital level of care if you have Cystic Fibrosis).
- **Dental:** Provides all Medicaid dental services for children and adults. All people on Medicaid must enroll in a dental plan.

For more information on the basic services provided by all plans, see the sections of this brochure titled **Services**.

How to Enroll

Continuing Care

If you are enrolling into a new plan you will be able to keep getting services that your plan or doctor already approved. This will last for up to 60 days after you are in the new plan. During this time, health plans and dental plans must pay for these approved services, and you can keep going to the same provider, even if the provider is not in the new plan's network. After 60 days, you will need to get services through a provider that is in the new plan's network.
