

Provider Guide to Applied Behavior Analysis (ABA)

Overview

Applied Behavior Analysis (ABA) is a therapeutic approach designed to improve socially significant behaviors, particularly for individuals with autism and developmental disabilities. Behavior Analysis (BA) services are now included in the Statewide Medicaid Managed Care (SMMC) program. It is part of CCP's covered behavioral health services under its Medicaid (MMA) and Florida Healthy Kids plans.

Health Network One (HN1) has been a valued partner in managing our Outpatient Occupational, Speech, and Physical Therapy services. We are excited to expand our partnership to include the clinical administration of Applied Behavior Analysis Therapy Services for our Medicaid (MMA) line of business.

Expanded Coverage

Our expanded coverage will include the following counties

- Brevard
- Broward
- Charlotte
- Collier
- Desoto
- Glades
- Hendry
- Indian River
- Lee
- Martin
- Miami-Dade
- Monroe
- Okeechobee
- Orange
- Osceola
- Palm Beach
- Sarasota
- Seminole
- St. Lucie

Eligibility

- Ensure the member is enrolled in CCP Medicaid and qualifies for ABA services.
- ABA is covered for children and adolescents under 21 who meet specific medical criteria, typically diagnosed with ASD.

Coordination with Providers

To become a participating ABA provider please complete the letter of interest form [Join Our Network \(healthnetworkone.com\)](http://healthnetworkone.com)

or you may e-mail join@healthnetworkone.com.

HN1's dedicated contracting team will advise you of the next steps.

Prior Authorization

- Providers must submit prior authorization requests for ABA services through HN1.
- Authorization must include all necessary clinical documentation.
- All authorization requests should be complete and contain clinical justification based on the individual's needs.
