PrimeOne™

A guide to your pharmacy benefits

from **Prime Therapeutics**

Welcome

Get the most from your pharmacy benefits

You may need medicine for a very short time, to treat something like an infection. Or you may need medicine for a longer time, to treat a condition like diabetes. Either way, we're focused on helping make your medicine more affordable, delivering an easy experience and helping you achieve better health.

How your pharmacy benefits work

Visit **PrimeOne.com/Member** to check the list of medicines covered under your pharmacy benefits (called a formulary). Doctors and pharmacists have carefully selected the generic and brand-name drugs on the list. Drugs that aren't on this list may cost you more.

For covered medicines, the amount you pay is called your copay, or cost share. Your pharmacy benefit plan pays the rest. Your plan may also have a deductible, which is the amount you must pay before your plan begins to pay.

You could save money

We can help you learn about lower-cost prescription options that may help you save money. Carefully evaluated by clinical experts for safety and effectiveness, these drugs may be available at a lower cost than your current prescription. Ask your doctor or pharmacist if a lower-cost option may be right for you.

Set your preferences

Set your communication preferences so we can contact you in your preferred way. Once you register, you can look up covered medicines, get an estimate of how much they'll cost and more.

Enjoy 24/7 support — including on holidays.
Call the number on your member ID card.

Put PrimeOne to work for you

To register with PrimeOne, all you need is your member ID card and a few clicks. Once you've registered, you can set your communication preferences, see your benefits and access tools to:

Search for drugs

Look up different drugs to see if your plan covers them. With the drug search tool, you can see prices and find out if there's an alternative to help you save. If your medicine isn't covered, talk to your doctor to determine if an alternative covered option may be right for you.

Find in-network pharmacies

One way we help make your medicines more affordable is by working with certain pharmacies to get lower prices. These pharmacies make up your plan's preferred pharmacy network. Search by pharmacy name, location and more.

View prescription history

See your prescription drug claims history, including the medicine, fill date and what you paid. You can also easily print your history for your doctor to review.

PrimeOne is designed to work on your computer, tablet or phone — wherever and whenever you need it.

Your health plan covers trips to the doctor

Prime Therapeutics (Prime) helps you get the medicines your doctor prescribes. Prime is the pharmacy benefit manager trusted by your health plan. Visit **PrimeOne.com/Member** to access all of the benefit information listed below in one convenient spot.

Save time with home delivery

- Get up to a 90-day supply of your long-term medicines.
- Enjoy free standard shipping, with home delivery anywhere in the United States.

Use a retail pharmacy

- Pick from a large national network of pharmacies where you can use your pharmacy benefits. If you use a pharmacy that's not in your network, you could pay more.

Access specialty pharmacy services

- Choose a full-service specialty pharmacy that's part of your pharmacy network.
- Get access to experienced pharmacists and dedicated staff that focus on providing education and support to members living with chronic or complex health conditions.

About Prime Therapeutics

Prime Therapeutics is reimagining pharmacy solutions to provide the care we would want for our loved ones.

We help you save, simplify your experience and support your health.

PrimeOne.com is a pharmacy benefit website owned and operated by Prime Therapeutics LLC, a separate company providing pharmacy solutions for your plan.
